

**By request, we've changed the date and shortened the schedule for our upcoming December workshop -- to make it more accessible in this busy season:**

# **Jesus' Psychology of Transformation**

## **Saturday, December 9, 9:30am-1:30pm**

**Take a few hours this Christmas season -- as we hover between dark and light -- to take a fresh look at the radical and non-patriarchal teachings of Jesus on self-transformation, the renewal of self and society, and our relationship to the radiant source of life.**

**We will look at Jesus in the light of world wisdom traditions; and we will look past the Greek and Latin to the mystic, earthy, poetic resonance of the original tongue of The Lord's Prayer and the Beatitudes.**

**We will see how the import of Jesus' words in the original and rich Aramaic brings in many new and down-to-earth dimensions of meaning that are profound, inspiring, and psychologically relevant to our emotional and spiritual growth today.**

**With exercises and meditations.**

**Cost: \$45.00. For questions or registration, please contact The Whole Health Center at 207-288-4128 or [info@thewholehealthcenter.org](mailto:info@thewholehealthcenter.org)**
